Committer: filiev <filip@Filips-MacBook-Air.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly:

```

```

git config --global user.name "Your Name"
git config --global user.email you@example.com

```

After doing this, you may fix the identity used for this commit with:

```
git commit --amend --reset-author
```

```
